## **RAYMORE-PECULIAR SCHOOL DISTRICT INTERNET/NETWORK USAGE AGREEMENT**

The internet/network usage agreement provided for by board policy 6320 must be signed and on file prior to use of any school district computers.

### **STUDENT DIRECTORY INFORMATION**

Please be advised that the school district will release "Directory Information" concerning your child upon request. This will include the following information: student's name, parent's name, date and place of birth, grade level, enrollment status, participation in school-based activities and sports, height and weight of members of athletic teams, dates of attendance, diplomas and awards received, photographs, videotapes, digital images and recorded sound unless such photographs, videotapes, digital images and recorded sound would be considered harmful or an invasion of privacy. If you do not want this type of information about your child released, please send a note to that effect to your child's principal. (See Board Policy 2400)

### **STUDENT RECORDS**

Board of Education Policy 2400 will guide school administration and staff decisions on student records. All parents will have the right to inspect their child's education records as allowed by law. As used in policy 2400, a "parent" includes a biological or adoptive parent, a guardian or an individual acting as a parent in the absence of a natural parent or guardian. The district will extend the same rights to either parent, regardless of divorce, custody or visitation rights, unless the district is provided with evidence that the parent's rights to inspect records have been legally revoked.

### **OUT-OF-DISTRICT MEDICAL AND PSYCHOLOGICAL EVALUATIONS**

Occasionally parents seek evaluations that require information from school district employees. The school district will partner with other professionals in order to provide accurate information. It is the district's practice to first obtain a release of information from the parent that will allow us to share information with the requesting agency. Subsequently, all rating scales, narratives, and other requested information will be forwarded directly to the agency itself.

Raymore-Peculiar School District's practice is to allow observations of students by qualified district personnel or those professionals with whom the district contracts directly. Raymore-Peculiar School District will provide detailed record of the observation so that information about the student in the school setting can be shared. District personnel will work with the parent and the outside agency to select the appropriate staff member to match the type of observation requested.

## **INTERNET ACCESS**

The purpose of the district's Internet access and other technological resources is to support and enhance learning and teaching by providing students and faculty with the tools necessary. This access enables them to participate in the type of educational activities which will both prepare students for entry into the increasingly complex environment they will face in the workforce and will also ensure that teachers and other staff have access to the latest in research materials.

Due to the far-reaching implications of these resources, the Board realizes that parameters must be set to assure that activities, which are not appropriate to the learning environment, do not take place. Acceptable uses of the computer resources are activities resulting from specific tasks and assignments, which support learning and teaching, promote the district's goals and objectives and advance the mission of the district. Unacceptable uses are those which violate the rights to privacy of others; violate copyright law; spread computer viruses; deliberately attempt to degrade or disrupt system performance; and locate, transmit, receive, store or print files or messages that are profane, obscene or that use language that is offensive or degrading to others.

The school district is responsible for securing its network and computing systems in a reasonable and economically feasible degree against unauthorized access and/or abuse while making them accessible for authorized and legitimate users. This responsibility includes informing users of expected standards of conduct and the punitive measures for not adhering to them. The administration may develop rules and regulations to help ensure that this informational resource is used in accordance with acceptable guidelines.

Teachers are responsible for teaching proper techniques and standards for participation, for guiding student access to appropriate uses of technological resources and for assuring that students understand that if they misuse them, they will lose their access.

All users of the district's computer resources are responsible for respecting and adhering to local, state, federal and international laws governing usage of the available technology. Any attempt to violate the provisions of the district's rules and regulations governing usage may result in revocation of user privileges, suspension, or other disciplinary action appropriate to the circumstances.

## PANTHER TIME

Panther Time is an intervention program designed to provide academic support for students during the school day. During Panther Time, which will be provided three days a week on Monday, Tuesday, and Friday, students will have opportunities to receive academic support from their classroom teachers. Panther Time can be on a voluntary basis if a student independently chooses to visit a teacher's classroom, but it can also be mandated by teachers and staff for students who are struggling academically. For those students who are assigned Panther Time by a classroom teacher, the expectation will be that students report directly to the requesting staff member during the Panther Time period. Failure to report for a mandated Panther Time session will result in a progressive set of disciplinary consequences.

1st Offense:	Warning and re-assign tutoring
2nd Offense:	45-minute detention
3rd Offense:	90-minute detention
4th Offense:	3-hour detention
5th Offense:	1 day ISS
Subsequent offenses:	1 day of ISS

## LATE STARTS

Late starts due to inclement weather will be announced on all major television and radio stations, posted on the district's website and recorded on the district's information hotline. In the event of a late start announcement, bus transportation will be provided two hours later than regular pickup times. School sessions will begin two hours later than normal times also, but dismissal time will remain the same.

## PARENT-TEACHER CONFERENCES

Parent-Teacher conferences are scheduled for November 1 and 2, 2017. Parents are encouraged to attend. Conferences are typically set up for parents to meet with teachers on a walk-in basis. Appointments times are not scheduled.

## VISITORS

Students may not bring visitors or guests to the high school during the school day. Visitors are required to check in at the front office with appropriate identification. Visitors may not bring outside food to any student during the school day.

## RP UPDATES

Parents can receive a weekly school district news update. This information is available to all employees, patrons and friends of the district. ## HEALTH SERVICES

### Policies regarding illness and accidents:

1. When a student becomes ill at school, he/she must report to the nurse's office. The nurse will notify the student's parent/custodian or a responsible adult if the student is too ill to remain at school.
2. All accidents are to be reported to the nurse's office immediately. An accident report will be completed when appropriate. Following any serious accident, the parent/guardian will be notified immediately.
3. In the case of serious illness where medical attention is immediately required, the student will be sent to the preferred hospital via emergency vehicle.
4. Parents should be certain the school has an emergency telephone number in addition to the home and work telephone numbers.
5. Students should not come to school ill. It is very important that we attempt to control the spread of communicable disease. We would appreciate your compliance in following these guidelines:
  - a. Students should be fever-free (without the influence of fever-reducing medicine) for 24 hours before returning to school.
  - b. The student health services recognize an oral or tympanic (ear) temperature as 100.0 degrees Fahrenheit as a fever. Students with a temperature of 100.0 degrees or greater will be sent home from school.
  - c. Students should be free from continuous coughing.
  - d. Students with vomiting or diarrhea will be sent home from school. An exception will be made for students vomiting secondary to certain medications, physical activity, or by the medical judgment of the school nurses. Students should remain at home for 24 hours after their last episode of vomiting or diarrhea.
  - e. Students should remain at home for 24 hours after taking the first dose of an antibiotic for infection. **The first dose of any medication should be taken at home and the child should remain at home for 24 hours.**
  - f. Students that are found to have head lice will not be allowed to attend school until free of living specimens and all nits.
  - g. Students will be excluded from school for pink eye/conjunctivitis until on medication for 24 hours with primary care provider's written orders or until clearing of the eye.
  - h. The health services department shall be informed of any student with an illness characterized by rash, recurrent episodes of bleeding, or who has draining skin lesions. The lesions and/or rashes should be covered at all times.
6. The nurse will not treat injuries that happen away from school.
7. **Parent/Guardian or their designated adult representative must deliver and pick up all medications to the health room.**
8. **A STUDENT MAY FACE DISCIPLINARY ACTION FROM SCHOOL FOR CARRYING, TAKING, OR DISTRIBUTING ANY TYPE OF UNAUTHORIZED PRESCRIPTION OR NON-PRESCRIPTION SUBSTANCES AT SCHOOL, INCLUDING VITAMIN PRODUCTS.**

The health services department realizes that parents are busy and have many responsibilities. However, it is in the best interest of your student and the other students to avoid sending sick children to school. Time spent in the health room is time NOT spent in the classroom.

### IMMUNIZATIONS AND MEDICATIONS

1. Each student should have a health inventory form and documentation of required immunizations on file in the health room before entering school.
2. Each student must meet Missouri State law immunization requirements.

### MEDICATION POLICY FOR HIGH SCHOOL

Medication brought to school will be governed through the health room. Over the counter medication must come in the original container and must be accompanied by a note from parent or guardian and physician stating dosage and time given.

No medication is to be carried by the student at school unless they are asthmatic and have been ordered by a physician to carry their inhaler with them. **All medications must be delivered directly to the health room by a responsible adult and will be dispensed by designated personnel.**

1. Prescription medications must come in the original current pharmacy bottle with the student's and Primary care provider's name clearly visible and must be accompanied by written physician's instructions along with a signed parental/custodial consent to administer. In accordance with school policy medications will not be administered within one (1) hour of dismissal unless there is a written primary care provider's order and signed parental/custodial consent to administer or the student is involved in a school-sponsored after-school activity.
2. Students who have been diagnosed with asthma may carry a prescription inhaler on their person provided there is a written primary care provider's order to do so on file in the health room.
3. Students experiencing coughing may carry and use a non-prescription cough drop.
4. School-owned medication will be dispensed only if a current Medication Order and Consent form is on file in the health room. The Medication Order and Consent form must be completed and signed by the parent/custodian. This form needs to be renewed annually.

### Crisis Planning

Schools are safe environments, but emergencies and/or crisis situations can happen anytime and anywhere. Our Emergency Planning process is focused around three central foundational principles, Readiness, Response and Recovery.

The READINESS component includes:

- Analyzing our facilities for safety, security, equipment capabilities and other areas of operational and functional ability.
- Researching and preplanning to determine the most probable scenarios that could adversely affect our staff and the community we serve.
- Training our staff members so they can act as a team to mitigate a threat or minimize the impact to our children when a natural or man-made disaster occurs.
- Constant vigilance to make necessary changes when protocols or actions need to be modified.
- Reflection on past experiences to inform new practices.

The RESPONSE component includes:

- Recognizing an emergency or disaster early and communicating initial actions to co-workers, students and parents.
- Early notification of Public Safety when appropriate (911, Police, Fire, Rescue, Sheriff)
- Staff implementing actions that follow a predetermined plan to mitigate a threat or minimize the impact to our students when a natural or man-made disaster occurs.
- Staff working seamlessly with Public Safety officers when they arrive to maximize positive outcomes.
- Communicating and working with families for an effective reunification.

The RECOVERY component includes:

- Having predetermined programs in place to provide counseling services to staff, students and parents when a situation and/or need arise.
- Having the ability to continue operations or the capacity to restore basic services quickly and effectively.
- Maintaining a fiscally sound financial business model so the organization has an emergency funding mechanism.
- Utilizing the "hotwash" methodology (immediate review of the response to the situation), so we can continue to reinforce the readiness process.

An Emergency Reference Guide has been developed to assist the Raymore-Peculiar School District staff with preparation, communication and education. This guide provides a step-by-step procedure to follow for most of the predictable scenarios our school district may experience.

### Critical Steps for Effective Emergency Management

1. Assess the situation.
2. Call 911 or other emergency numbers as appropriate.
3. Secure the building for the safety of students and staff. Take initial actions as provided by the Emergency Reference Guide.
4. Notify the Superintendent and other appropriate personnel.
5. Refer media inquiries to the Communications Coordinator.

6. Notify families of the students and/or people involved.
7. Mobilize the building and/or district Crisis Management Team.
8. Keep a log of all activity.

### Communications

Communications are established between all sites of the Raymore-Peculiar School District, the District Office and the appropriate Public Safety agencies. Due to the geographical makeup of the District, there are several Public Safety entities involved, depending on the precise location of the situations or event. These agencies are:

- Local Police and Fire Departments
  - o Raymore Police Department and Peculiar Police Department.
  - o South Metro Fire Department and West Peculiar Fire Department.
  - o Cass County Sheriff's Department and Emergency Management
  - o Missouri State Highway Patrol

The Superintendent's Office will communicate information and procedures to the public in the event of an emergency situation involving a district site. Information that may be communicated include:

- Emergency situation information
- Dismissal procedures
- Family unification procedures

If school must be canceled or dismissed early due to weather conditions or other emergencies, an announcement will be made through School Messenger, RPSD website, area television and radio stations and other media sources (official District social media sites).

## CHILD NUTRITION PROGRAM

Child Nutrition is committed to providing affordable, high quality, freshly prepared, nutritious food and quality service. We provide a friendly environment where you are encouraged to make healthy choices. Good nutrition is essential in the learning process and the district will provide nutritious food options so that you are ready to learn. Our cafeteria provides a variety of daily options for breakfast and lunch. Breakfast options include two hot entrée choices or cereal and assorted breakfast bars and breads available daily. At lunch, you'll find two hot entrée options, pizza by the slice, build to order subs or salads at our new Fresh Express plus a create-your-own bar with a feature of the day. Meals come with your choice of self-serve hot vegetables, frozen or canned fruit as well as multiple fresh fruit and vegetable choices and milk or juice.

We participate in the National School Lunch program and have requirements as to what makes a meal. Those requirements are:

- There are three food groups to a student breakfast: grain, fruit and dairy (optional protein items may be offered but are not required). A meal at breakfast consists of the entrée (grain), self-serve fruits and milk. Students must take at least ½ cup of fruit and two other food group items to make a meal.
- There are five food groups to a student lunch: grain, protein, fruit, vegetables and dairy. A meal at lunch consists of the entrée (grain & protein), self-serve fruit and vegetables and milk. Students must take at least ½ cup of fruit or vegetables and two other food groups to make a meal.

It is important that you and your family discuss available options in order to determine what meets your family goals and nutritional needs. A la carte items are purchase separate from the meal and vary in price from \$0.25 to \$2.00. Daily menus also can be found on our app! Download "Web Menus by School Nutrition and Fitness" at the App Store or on your Android. Have our menus at your fingertips anytime! All students are assigned an account and PIN. Accounts are meant to be debit accounts with a balance that purchases are subtracted from. This helps get students through the lines quickly. Please make sure to keep your PIN confidential. If there is not money in your account, you are permitted to charge meals however, no a la carte items may be purchased without a positive account balance. Accounts with low or negative balances will receive daily calls and emails until the account is brought to a balance greater than \$5.00. Students may pay by cash or check (payable to RP Child Nutrition) in the cafeteria or we accept debit, credit and online checks through our Ray-Pec Web store located at [www.raypec.k12.mo.us](http://www.raypec.k12.mo.us). You will need to provide your student PIN for online payments. Please email [rpchildnutrition@raypec.org](mailto:rpchildnutrition@raypec.org) to obtain a lost or forgotten PIN number. Parents have the option to view student account transaction histories by requesting that information via email at [rpchildnutrition@raypec.org](mailto:rpchildnutrition@raypec.org). Please provide the student name. Our goal is to provide a meal to each and every student needing one therefore we participate in the Free and Reduced Meal Program. Students who are qualified will receive either a free or reduced price breakfast AND lunch daily. In order to promote a safe learning environment for all students, the Raymore-Peculiar R-II School District prohibits all forms of hazing, bullying and student intimidation. (See Board Policy 2655 and 2920.)

Hazing is defined as any activity, on or off school grounds, that a reasonable person believes would negatively impact the mental or physical health or safety of a student or put the student in a ridiculous, humiliating, stressful or disconcerting position for the purpose of initiation, affiliation, admission, membership or maintenance of membership in any group, class, organization, club or athletic team including, but not limited to, a grade level, student organization or school-sponsored activity.

The school will try to contact the student/ owner prior to the search, but may conduct searches without notice or consent. A student is responsible for the contents of his or her vehicle.

1. All students are annually required to purchase a parking hang tag by the second week of school. The cost of the first hang tag is \$25.00 per semester or \$50.00 per year. Any exceptions to the dress code will be determined by the administration.**

# RAYMORE-PECULIAR HIGH SCHOOL STUDENT DISCIPLINE POLICY 2018-2019 DISCIPLINARY CONSEQUENCES AND NOTIFICATION

## I. INTRODUCTION & GENERAL STATEMENT

The Raymore-Peculiar School District believes that schools have been established for the education of the individual and the improvement of society. The district also believes that one of the major functions of our schools is the preparation of youth for citizenship in our community and nation. Self-discipline and the acceptance of individual responsibility are important phases of this preparation. It is the objective and policy of the Raymore-Peculiar School District to recognize, preserve and protect the individual rights of all students and yet, at the same time, to encourage and enforce the exercise of these rights within the necessary framework of an orderly, efficient and continuing school program. Therefore, discipline and structure are necessary standards for the maintenance of an atmosphere where orderly learning is possible and encouraged.

All district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school, or on any property of the school, on any school bus going to or returning from school or school activities, and during school-sponsored activities. The principal of each school is authorized and directed to develop rules and regulations consistent with policies, rules and regulations approved by the Board of Education and disseminate them each year to students and/or parents.

The Board of Education recognizes that acceptable behavior is essential to the development of responsible and self-disciplined citizens and in promoting an effective instructional program in the school. Acceptable behavior is based on respect for one's self and for the worth and human dignity of others. The development of such behavior in students is a dual function of the home and school.

In order to fulfill the responsibility of the school, it is necessary that each activity is conducive to learning. Standards of student conduct are established by the Raymore-Peculiar School District Board of Education to create an environment in which each student's right to learn is protected. *Students are expected to attend school punctually and regularly, to obey all the rules and regulations, to obey all directions and requests of staff, to observe good order and correct deportment, to be diligent in study, to be clean and tidy in person and attire, to be obliging to others, to refrain from the use of profane or improper language and to refrain from the use of tobacco, illegal drugs, controlled substances and alcoholic beverages, while on school premises or under school supervision.* Students and parents will be notified of rights and responsibilities, including standards of conduct, through handbooks distributed annually.

The Student Code of Conduct is designed to foster student responsibility, respect for the rights of others and to insure the orderly operations of the school. No code can be expected to list each and every offense, which may result in the use of disciplinary action. However, it is the purpose of this Code to list certain offenses, which, if committed by a student, will result in the imposition of a consequence. **Any conduct not included herein, or an aggravated circumstance of any offense or an action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education.** Refer to Board of Education policies 2651, 2655, 2640, 2641, 2620, 2150 2160, 2600, 2610, 2670, 2660, 2661, 2662, 2663, 2672, 2673 and 1460.

## II. DISCIPLINARY CONSEQUENCES AND NOTIFICATION

Students shall be expected to assume their share of responsibility in maintaining an atmosphere conducive to effective teaching/learning situations in all classes and activities in which they participate under the sponsorship of the school. All school district personnel responsible for the care and supervision of the students are authorized to hold every student strictly accountable for any disorderly conduct in violation of the standard of student conduct. The discipline authority, standard of conduct and consequences of volatile conduct administered by district personnel as described in this handbook shall apply equally to students: A) in school; B) on any property of the district, or contiguous to district property; C) during any district-sponsored activities, and including on any school bus going to or returning from school, or any district-sponsored activities; or during intermission or recess periods (refer to policies 2652, 2600, and 2610). Students may be disciplined for violations of school district policies, building handbook rules or classroom policies. Students receiving administrative discipline will be given a copy of the discipline referral outlining the nature of the

problem, administrative action and the date/time of the consequence. Parents will be notified of disciplinary actions by email/letter as soon as possible. In the case of serious disciplinary action involving out-of-school suspension, an attempt will be made to contact the parents by phone.

When a student is sent to the office for disciplinary action, the administrator has the option of following the disciplinary consequence outlined in this handbook or administering other disciplinary action as deemed appropriate. **Failure of the student to come to the office on request may be deemed insubordination and be cause for out-of-school suspension.** All students must secure passes upon and before returning to their classes.

### III. SAFE SCHOOLS LAW

In accordance with Missouri House Bills 1301 and 1298, the “Safe Schools” legislation provides the following safeguards for the local school district.

According to Missouri Revised Statute 160.261. The local board of education of each school district shall clearly establish a written policy of discipline. A written copy of the district’s discipline policy shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

The policy shall require school administrators to report acts of school violence to all teachers at the attendance center and, in addition, to other school district employees with a need to know. For the purposes of this chapter or chapter 167, “need to know” is defined as school personnel who are directly responsible for the student’s education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. As used in this section, the phrase “act of school violence” or “violent behavior” means the exertion of physical force by a student with the intent to do serious physical injury to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. The policy shall at a minimum require school administrators to report, as soon as reasonably practical, to the appropriate law enforcement agency any of the following crimes, or any act which if committed by an adult would be one of the following crimes:

(1) First degree murder; (2) Second degree murder; (3) Kidnapping; (4) First degree assault; (5) Forcible rape; (6) Forcible sodomy; (7) Burglary in the first degree; (8) Burglary in the second degree; (9) Robbery in the first degree; (10) Distribution of drugs; (11) Distribution of drugs to a minor; (12) Arson in the first degree; (13) Voluntary manslaughter; (14) Involuntary manslaughter; (15) Second degree assault; (16) Sexual assault; (17) Felonious restraint; (18) Property damage in the first degree; (19) The possession of a weapon; (20) Child molestation in the first degree; (21) Deviate sexual assault; (22) Sexual misconduct involving a child; (23) Sexual abuse; (24) Harassment; or (25) Stalking; committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. - f. Appeal. The complainant or the LEA may appeal the decision of the Department to the U.S. Department of Education.

8. How are complaints related to equitable services to nonpublic school children handled differently?

In addition to the procedures listed in number 7 above, complaints related to equitable services will also be filed with the U.S. Department of Education, and they will receive all information related to the investigation and resolution of the complaint. Also, appeals to the United States Department of Education must be filed no longer than thirty days following the Department's resolution of the complaint (or its failure to resolve the complaint).

9. How will appeals to the Department be investigated?

The Department will initiate an investigation within ten days, which will be concluded within thirty days from the day of the appeal. This investigation may be continued beyond the thirty-day limit at the discretion of the Department. At the conclusion of the investigation, the Department will communicate the decision and reasons for the decision to the complainant and the LEA. Recommendations and details of the decision are to be implemented within fifteen days of the decision being delivered to the LEA.

10. What happens if a complaint is not resolved at the state level (the Department)?

The complainant or the LEA may appeal the decision of the Department to the United States Department of Education.

1. **Political affiliations;**
2. **Mental and psychological problems potentially embarrassing to the student or his/her family;**
3. **Sexual behavior and attitudes;**
4. **Illegal, anti-social, self-incriminating and demeaning behavior;**
5. **Critical appraisals of other individuals with whom respondents have close family relationships;**
6. **Legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers; or**
7. **Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program);**

The school district shall give parents and students effective notice of their rights under this policy.

### PROCESS FOR RESOLVING A CONCERN OR COMPLAINT (BOARD OF EDUCATION POLICY 1460)

The following steps are to be followed by parents/guardians, students or the public when concerns or complaints arise regarding the operation of the school district that cannot be addressed through other established policies or procedures.

1. Concerns or complaints should first be addressed to the teacher or employee directly involved.
2. Unsettled matters from (1) above or concerns or complaints regarding individual schools should be presented to the principal of the school. The principal will provide a response to the individual raising the complainant within five business days of receiving the complaint or concern unless additional time is necessary to investigate or extenuating circumstances exist.
3. Unsettled matters from (2) above or concerns or complaints regarding the school district in general should be presented to the assistant superintendent or designee. The assistant superintendent or designee will provide a response to the individual voicing the complainant within five business days of receiving the concern or complaint, unless additional time is necessary to investigate or extenuating circumstances exist.
4. Unsettled matters from (3) above or concerns or complaints regarding the school district in general should be presented to the superintendent or designee. The superintendent or designee will provide a response to the individual voicing the complainant within five business days of receiving the concern or complaint, unless additional time is necessary to investigate or extenuating circumstances exist.
5. If the matter cannot be settled satisfactorily by the superintendent or designee, a member of the public may request that the issue be put on the Board agenda, using the process outlined in Board policy. In addition, written comments submitted to the superintendent or the secretary of the Board that are directed to the Board will be provided to the entire Board. The Board is not obligated to address a complaint. If the Board decides to hear the issue, the Board's decision is final. Otherwise, the superintendent's decision on the issue is final.
