Achievement Review (K-8)

NWEA RIT scores were examined for all students using the Spring 17-18 and Fall 18-19 testing windows. Average change in RIT score was then compared between those that attended summer school and those student who did not. The comparisons shows that if a student attended summer school their RIT Scores increased an average of 0.2087 points. If they did not attend summer school their RIT Scores decreased by an average of 0.2455 points.
