Grades 9-12: 9:30 - 11:30 am

Camp for current and incoming 9-12 grades will focus on teaching fundamental skills, offensive and defensive team concepts, and competitive drills. This experience will be an introduction as to what high school practices will be like. Campers will also have the opportunity to learn concepts needed during the summer league and shootout games later in the summer.

Grades 2-8: 12:30 - 2:30 pm

Campers will learn the fundamental skills of dribbling, passing, shooting, and rebounding. They will then have opportunities to put these skills into play during competitive drills. Drills are designed to teach skills and push campers at whatever skill level they are currently at. They will leave camp armed with a better understanding of how to improve as a basketball player year round. They will also have an opportunity to learn and receive coaching from some of our current high school athletes.
